Power	350 mAh rechargeable battery; Qi charging
Image updates	Bluetooth 5.1 phone app; gateway workflow by project

Standard scope

- Hardware scope listed in the quotation

Options and installation

- Branding and integration scope on request

Confirm the mechanical drawing and installation accessories before ordering.

Ordering and software scope

The September 2026 specification targets samples from late September. Confirm actual availability before scheduling a trial.

Confirm price, taxes, freight, warranty and compliance documents in the quotation. Scheduling, groups and CMS/API require a demonstration and agreed scope; the expanded MagiRealm content engine remains on the roadmap. Image retention power is not a whole-device power or battery-life specification.
